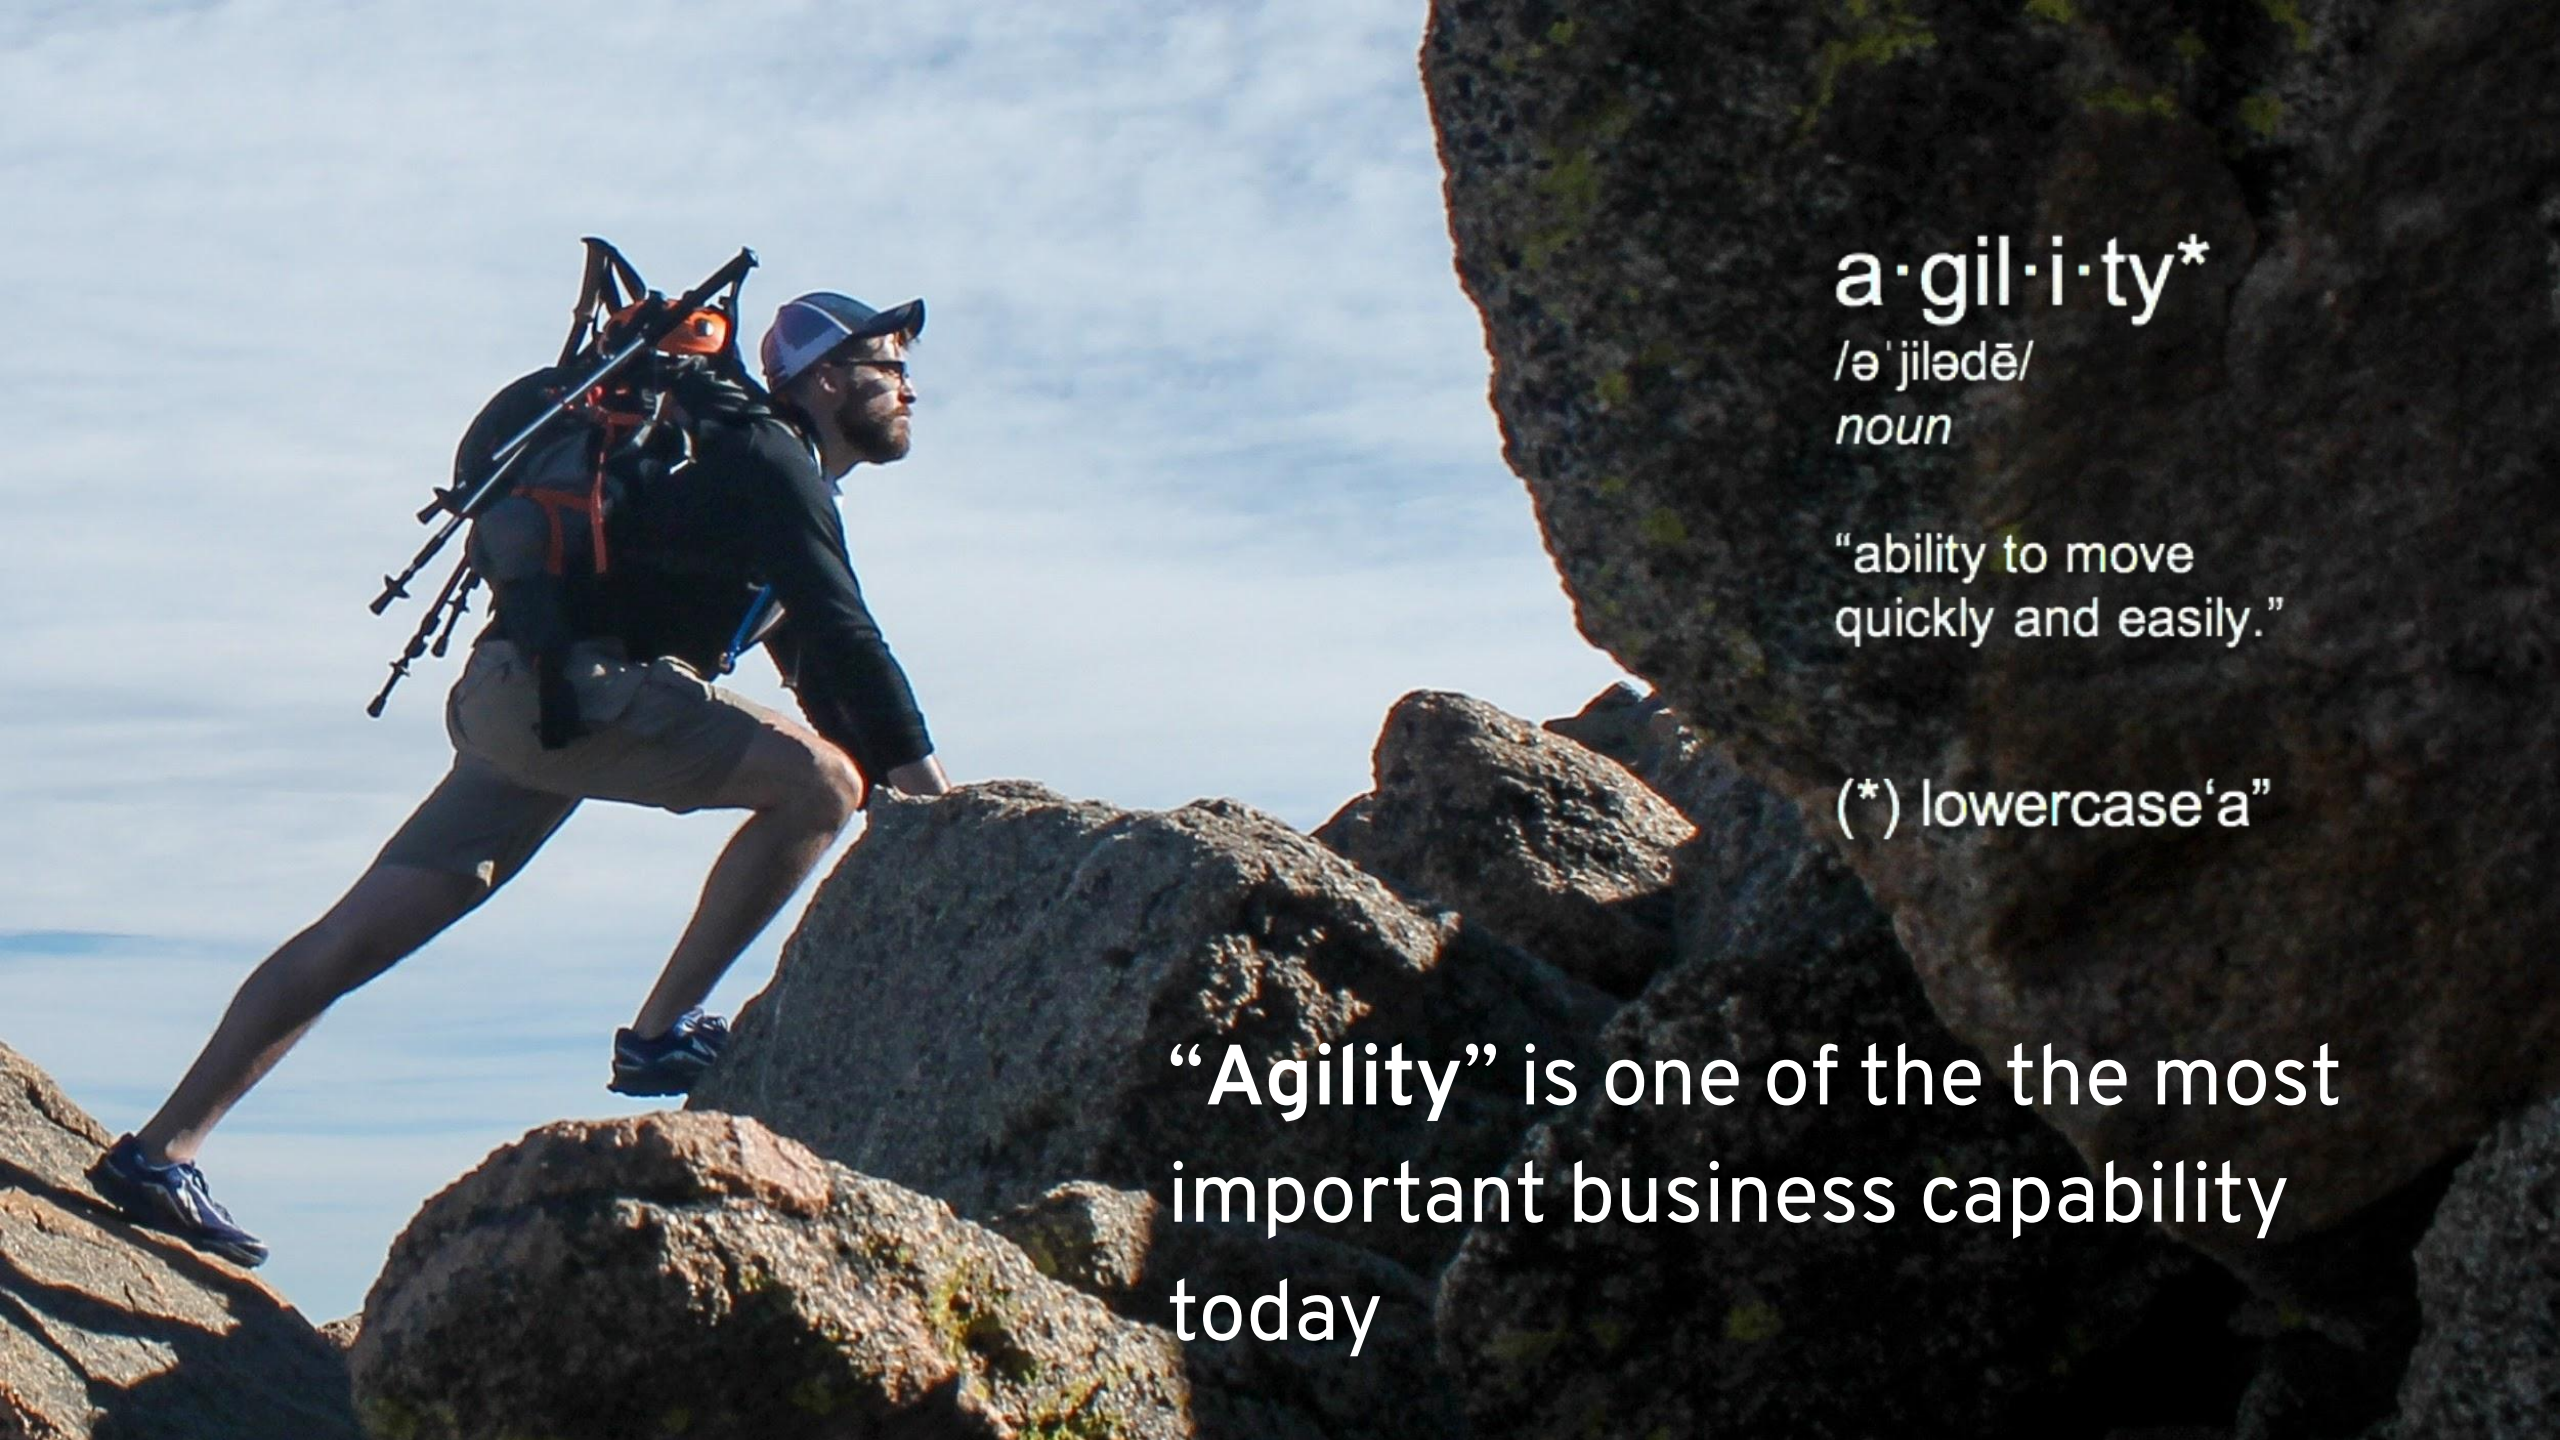
SPEED

Fast delivery of Business value

COST

Optimize the development and delivery process

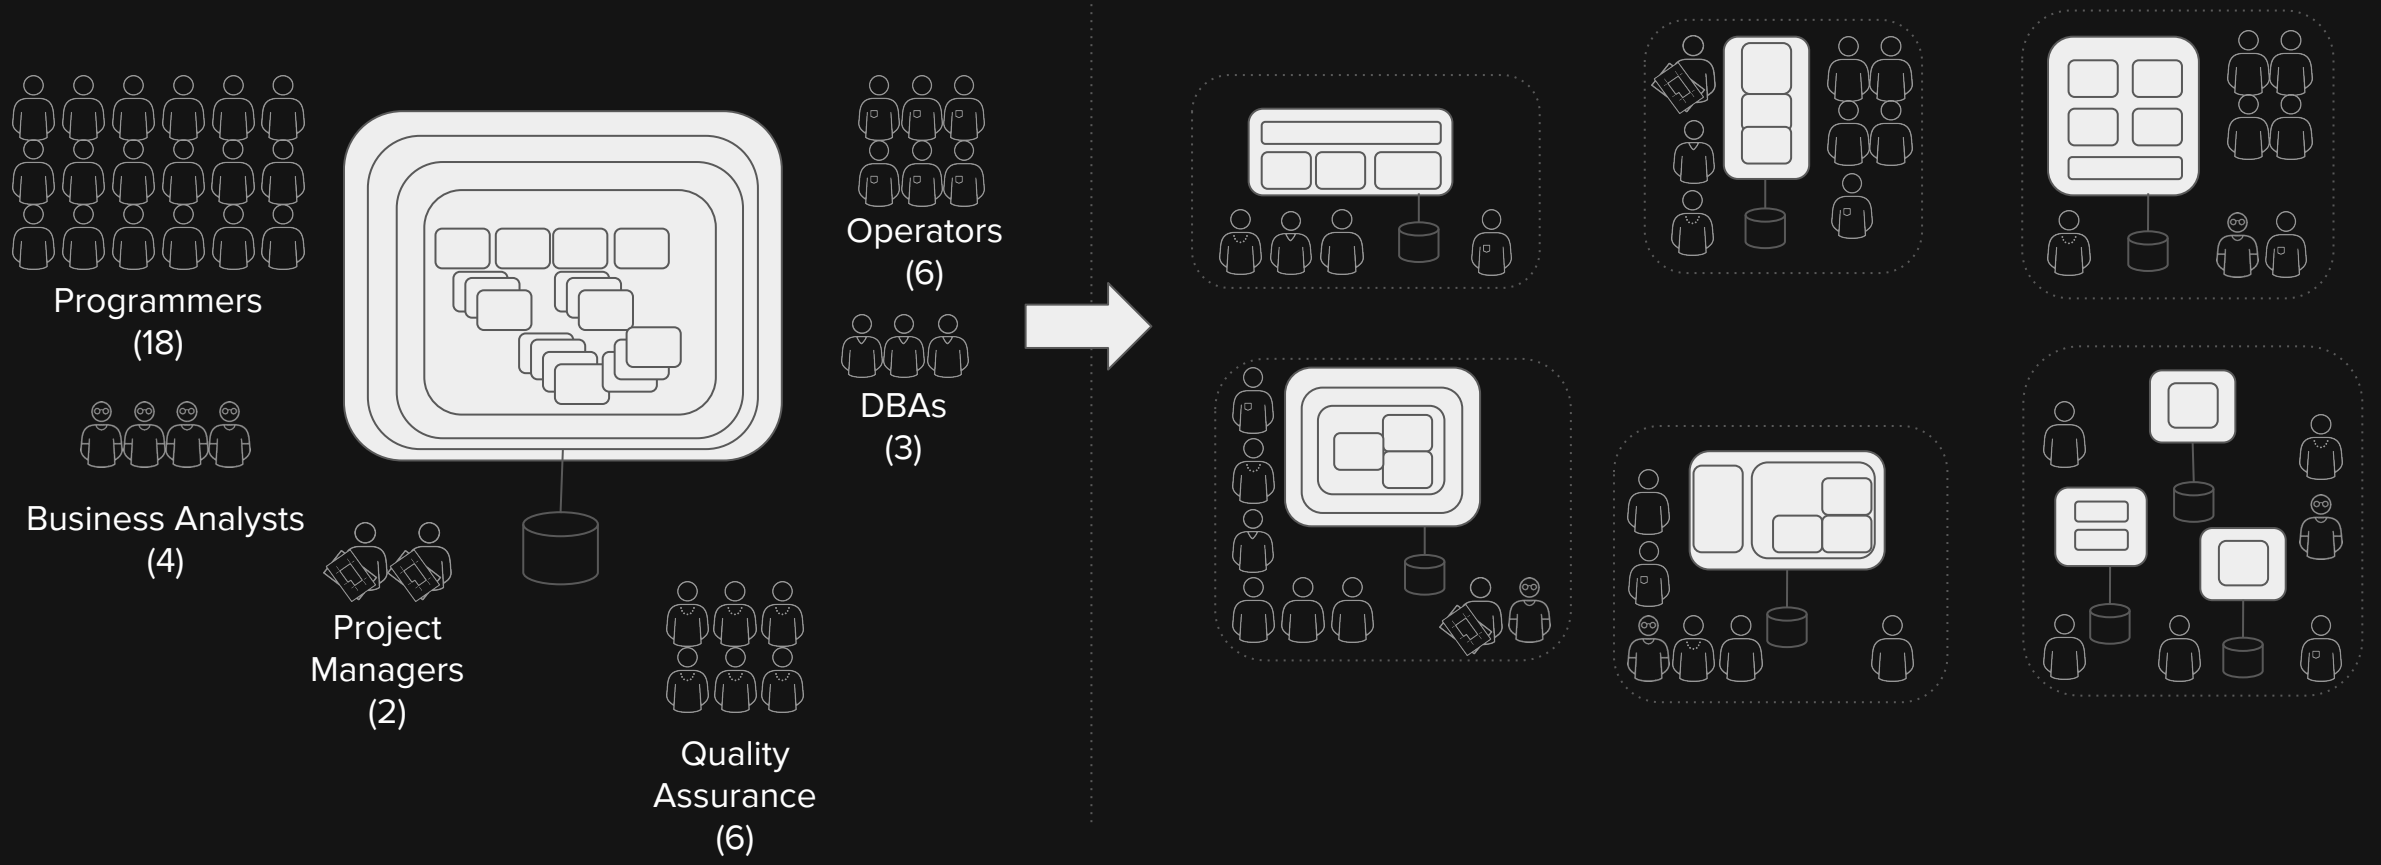
Red Hat



“**Agility**” is one of the the most important business capability today

Using smaller teams

Development Speed

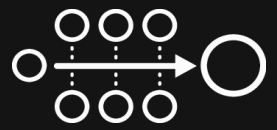


Red Hat

Modern Applications

- *Small footprint*

API Management



Process Automation

Composition / Integration layer

Event broker

ComplexEvent Processing

Service Mesh

Business Rules

Microservices layer

Serverless

Red Hat

What developers really need ?

Be reactive and proactive with the business

Be independent Self service

Choose

Don’t loose time waiting

Don’t care about cloud, hybrid, multi ….

Focus on quality and performances

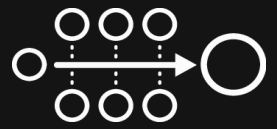
My code runs the same from my laptop to prod

Red Hat

Modern Applications

→ *Small footprint* → *Containers*

API Management



Process Automation

Composition / Integration layer

Event broker

ComplexEvent Processing

Service Mesh

Business Rules

Microservices layer

Serverless

Platform as a Service
